International Journal of Fracture

CONTENTS OF VOLUME 49 (1991)

Vol. 49, No. 1, 1 May 1991

Process zone analysis for the single-edge notched specimen: Part I. Process zone size and crack profile	R.P. OJDROVIC and H.J. PETROSKI	1
Process zone analysis for the single-edge notched specimen: Part II. Process zone growth and crack propagation	R.P. OJDROVIC and H.J. PETROSKI	17
Elastic interaction between screw dislocations and the internal crack near a free surface	S.-T. SHIUE and S. LEE	29
An analysis of dynamic, ductile crack growth in a double edge cracked specimen	A. NEEDLEMAN and V. TVERGAARD	41
Qualitative analysis of the fast brittle fracture	M. WATANABE	69

Vol. 49, No. 2, 15 May 1991

Time-dependent temperature fields and stress interactions with subsurface or surface-breaking defects	C. ATKINSON and J.M. MARTÍNEZ-ESNAOLA	79
Elastic interaction of a crack with a random array of microcracks	A. CHUDNOVSKY and SHAOFU WU	123
A discussion about a class of stress intensity factors and its verification	JIANG CHI-PING, ZOU ZHEN-ZHU, WANG DUO and LIU YOU-WEN	141

Vol. 49, No. 3, June 1991

The determination of crack bridging forces	B.N. COX and D.B. MARSHALL	159
Transient crack-tip fields for mixed-mode power law creep	J.R. BROCKENBROUGH, C.F. SHIH and S. SURESH	177
Pop-in fracture: observations on load drop, displacement increase, and crack advance	J.D.G. SUMPTER	203
Large scale yielding for dynamic crack growth in a strip geometry	S. ÖSTLUND	219

The arbitrarily loaded single-edge cracked circular disc; accurate weight function solutions	X.R. WU	239
An interface integral equation method applied to a crack impinging upon a bimaterial, frictional interface	H.R. SCHWIETERT and P.S. STEIF	257
A global collocation technique for the solution of opening mode crack problems	R.J. SANFORD and M.T. KIRK	273
Elastic-plastic crack-tip-field numerical analysis integrated with moire interferometry	N.T. SIVANERI, Y.P. XIE and B.S.-J. KANG	291
The sensitivity of fracture location distribution in brittle materials	R.C. WETHERHOLD	305

AUTHOR INDEX, VOL. 49 (1991)

Atkinson, C., 79
Brockenbrough, J.R., 177
Chudnovsky, A., 123
Cox, B.N., 159
Jiang Chi-Ping,
Kang, B.S.-J., 291
Kirk, M.T., 273
Lee, S., 29
Liu You-Wen, 141
Marshall, D.B., 159
Martínez-Esnaola, J.M., 79
Needleman, A., 41
Ojdrovic, R.P., 1, 17
Östlund, S., 219
Petroski, H.J., 1, 17
Sanford, R.J., 273
Schwietert, H.R., 257
Shih, C.F., 177
Shiue, S.-T., 29
Sivaneri, N.T., 291
Steif, P.S., 257
Sumpter, J.D.G., 203

International Journal of Fracture

CONTENTS OF VOLUME 49 (1991)

Vol. 49, No. 1, 1 May 1991

Meetings calendar		R2
An interpretation of ΔJ for cyclically unsaturated materials	KEE BONG YOON and A. SAXENA	R3
The plastic component of the J-integral expressed, via eta factors, in terms of crack size rather than ligament width	E. SMITH	R11

Vol. 49, No. 2, 15 May 1991

Meetings calendar		R18
A compendium of sources of fracture toughness and fatigue crack growth data for metallic alloys – Part IV	C.M. HUDSON and J.J. FERRAINOLO	R19

Vol. 49, No. 3, 1 June 1991

Meetings calendar		R20
Influence of initial crack size, specimen size and loading type on R-curves caused by bridging stresses	T. FETT and D. MUNZ	R21

Vol. 49, No. 4, 15 June 1991

Meetings calendar		R32
A simple J_M expression for a growing crack	E. SMITH	R33
New singular integral equation for curve crack problem in plane elasticity	Y.Z. CHEN	R39
